

Infection Prevention Compliance Checklist

S = Satisfactory NI = Needs Improvement N/A = Not Applicable N/O = Not Observed

Transmission-Based Precautions and Isolation Rooms

Observation	S	NI	N/A or NI	Action Needed
Isolation rooms designated per facility policy (i.e. proper signage in place)				
PPE located where staff can easily access				
Staff can verbalize where PPE is located for isolation rooms				
Hand hygiene supplies available/accessible for isolation rooms				
Staff adhere to transmission-based precautions (i.e. gowns and gloves for contact precautions, mask for droplet precautions)				
Trash can available at exit of room to dispose of PPE				
Cohorting: Curtain pulled closed between residents if one or both require droplet precautions.				
Cohorting: Residents with C. difficile do not share a commode with another resident				
Visitors and family members educated on type of precautions required for resident				
Staff free of illness and uncovered skin lesions				
Equipment is dedicated to resident on precautions				
Shared equipment is properly cleaned and disinfected immediately after use				
Process in place to complete terminal room cleaning, including removal and laundering of curtains, when resident is removed from isolation precautions.
